OUR 2024 IMPACT

*“For it is God who works in you to will and to act on
behalf of His good purpose.”* Philippians 2:13

Anticipating Miracles Daily

A WORD FROM SYLVIA

Last year, we celebrated 20 years of ministry in Houston, Texas. We have seen 20 years of the Lord's great provision; 20 years of hope; 20 years of miracles.

Most importantly, over 41,500 babies have been saved from abortion.

But you know we never stop there! That is over 41,500 mothers, fathers, and families we reached. We have prayed for them. We have served them. We have cried with them, rejoiced with them, and loved them deeply.

Thanks to you, we continue this joyful, life-saving work. From the bottom of my heart – thank you.

“Let the favor of the Lord our God be upon us, and establish the work of our hands...” Psalm 90:17

Sylvia B. Johnson

THE BRIDGE TO LIFE PROGRAM: WALKING WITH FAMILIES EVERY STEP OF THE WAY

When a family chooses life, The Bridge to Life Program is there – not just for the moment of decision, but for the journey ahead.

We provide the **ongoing support** families need to thrive. Through classes, mentorship, material assistance, and help navigating the path to stability, we walk alongside women and families with compassionate care and practical resources.

And it's all completely free – until the baby turns three!

Free Bridge to Life Program Services | At the Bridge to Life, we don't just help women choose life – we help them **live it abundantly**.

- Full case management
- Referrals to community services and counseling
- Connections to medical providers
- Parenting and childbirth classes
- Abuse prevention and education
- *Mommy and Me* classes with professional pediatric therapists
- Fatherhood support and mentorship
- Peer counseling and crisis intervention
- Benefits assistance
- Career and education support
- Diapers, wipes, and essential baby supplies
- Adoption, consultations and agency connections
- Help with applying for benefits and navigating assistance programs

JASMINE FOUND A BETTER WAY

Jasmine found Houston Pregnancy Help Center because it was the closest place offering free pregnancy tests. She came in ready for an abortion, having called Planned Parenthood already, and knowing what she needed.

Though extremely shy and nervous, she spoke with us about her difficult situation, which is when we offered support and an ultrasound ... an ultrasound that changed everything! This is what Jasmine told us about that ultrasound:

"When I heard the heartbeat, I heard life. I even heard something divine. I knew this was not something to get rid of... it was very real."

She knew then she couldn't abort. At first Jasmine considered adoption, but she ultimately decided to keep her baby boy. We assured Jasmine that we would be there for her, to help her navigate everything.

(continued on next page) →

Though she was painfully nervous, she felt comfortable at the Pregnancy Center right away.

Sadly, Jasmine's mom was addicted to pain pills, and was a very unstable influence. Jasmine couldn't tell her she was pregnant. She also shared more about the horrible gang rape that resulted in her pregnancy, along with past abuse. All through this, Jasmine's tenacious spirit was evident, even under layers of low self-esteem and self-worth.

Jasmine was so encouraged by everything the Pregnancy Center could help her with – she wanted the stable and thriving life for herself and her child that her peer counselor knew she could achieve. Jasmine was soon a frequent visitor.

Jasmine took Nurse Mary's parenting and childbirth classes. She received diapers, wipes, baby clothes, a breast pump, and a car seat.

Throughout all of this, Jasmine blossomed. Her self-esteem grew, she understood her self-worth, and she came out of her shell. So much so that she immediately wanted to give back!

Even as Houston Pregnancy Help Center was helping Jasmine find stable ground, she was finding ways to volunteer herself.

Jasmine has now finished her degree, earned another, reconciled with her mother, and is thriving.

We are proud of, and blessed by, Jasmine. Her story of love, responsibility, and tenacity is a beautiful example of what can happen when women are given these resources to create a brighter future for themselves and their children.

“For I know the plans I have for you declares the Lord...” Jeremiah 29:11

TEXAS IS A PRO-LIFE STATE

But sadly, abortions are still occurring...

Did you know that being in a pro-life state has increased our client volume? We are proud to be part of a pro-life state, and we think it is very important to fight for pro-life legislation, but that is never the end of the story.

Women in Texas are still obtaining abortions at very high rates, both in-person (in other states) and through the abortion pill. In fact, major west-coast abortion centers are currently reporting that around 50% of their clients come from Texas.

Add to this the current economic climate, and one thing is very clear: women and families in Houston need us now, more than ever! Your support goes straight to providing everything women and men need to choose life, and establish strong, faithful families.
